1. Plantation Program

The Plantation Program was held on 24/07/2019. Plantation is an important curricular activity. Therefore plantation was arranged by science Department. Plants maintain the O_2/CO_2 balance in nature through Photosynthesis in this process CO_2 is absorbed in day time and O_2 is released in nature. Therefore Plants are playing very important role in nature.

Plants provide sweet fruits to human beings, fodder to cattle's as well as plants provide food, shelter to the animals as well as man. Plants are very useful for practical in laboratory, as well as some act as medicinal plant. Therefore Science Faculty established the Botanical garden on 1 acre in college premises. In our garden some medicinal, some flowering and some tree plants are available. In this Academic year (2019-20) we have arranged Plantation in Garden as well as around the administrative building of college. The Science Staff- Members and Students of Science Faculty were Actively Participated in Plantation Program.

2017-18

Annual Report - 2017-18

1. Plantation

Plantation is very essential, as plants maintain the O_2 / CO_2 balance in the nature, by absorbing the CO_2 in day time and releasing the O_2 through photosynthesis.

Plants Provide sweet fruits for human beings, foder for cattles, and also act as shelter for man and cattles.

As per as the importance of plantation, the science faculty has established the botanical garden on 1.30 acres in college premises. Medicinal, Flowering and tree plants are available in our botanical garden. In the academic year 2017-18, plantation programme was held on 06-07-2017.

The staff members and students of science faculty were Participated in plantation. some medicinal, Flowering and tree plants were planted in botnical garden as well as around the play ground.
